Mooc (2)

- 4 possible learning paths
 - Pharo noobs
 - A Web perspective
 - OO revisited
 - Black magic
- 155 quiz
- 6 little challenges
- 3 exercises and one project

Some testimonies

- "I have just completed week seven of the Pharo Mocc (beginner and object oriented tracks) I am starting a redo of the Mocc with the web track (TinyBlog project). I have already learned so much ! I have spent the last 20 years or so in software development and, following this Mocc, I realized I hadn't really grasped the essence of object oriented design. - Anonymous"
- "I just completed the @pharoproject Mocc the best investment I have ever made of my time. MAQBOOL"

Some testimonies

- "Really one of the best mooc I have ever attended. And I have attended quite a few (openSAP, openHPI). As an old fashioned ABAP developer I want to be reborn as Pharo developer in my next life :-) - Anonymous"
- "A general comment I wanted to make is that the MOOC so far has been great. Impressed with the quality and content, and grateful that it is available and free. Many thanks! - Aryeh"
