A Journey in Pharo: A Bright Future

Damien Cassou, Stéphane Ducasse and Luc Fabresse

W7S08

The Most Important Effort is Behind

- You learned most of Pharo aspects
  - the rest, including package dependency management and continuous integration, is in www.pharo.org[1]
- You learned the core of Pharo
  - now you can learn any Pharo library

---

[1] http://www.pharo.org/

Pharo is not Read-Only

Pharo is not a black-box, it is an aquarium with living objects!
You can swim in it and be really productive.

Business

Pharo is a community of people building businesses

- if you need help just ask

Pharo is Evolving

- Pharo is at the beginning of its life
- Infrastructure is continously improving
  - compiler, tools, core libraries, ...
- Community is constantly growing

Mid-Term Vision

- Bootstrapped core to support coffee machine to cloud apps
- Better integration with OSes and C
- Pharo as a DLL
- Better package systems
- A module system
- Scripting syntax
- Better integration with versioning systems
- Modular and validated distributions

Pharo and its Projects

- Pharo is built by up to 70 international contributors
- The community is working on many different projects
- You can join, help

Hope You Liked the Journey in Pharo

Hope You Liked the Journey in Pharo
